

PSC HVDC

PSC was founded on delivering advanced HVDC projects, emerging as a premier HVDC world expert.

PSC HVDC services

- ▶ HVDC is one of PSC’s premier flagship services, in which we have become the proven global leader
- ▶ A team of leading experts with a track record of involvement in over half of all VSC HVDC projects worldwide
- ▶ An expert team that can be deployed anywhere in the world
- ▶ End to end fully integrated HVDC solutions
- ▶ Outstanding knowledge of all aspects of HVDC technology and project implementation, maintenance and support

(Our capabilities are listed in more detail overleaf)

Our HVDC solutions are a flag ship for PSC. Our reputation for excellence, in depth technical know-how and practical, on the ground application are all embodied in our superb team of world leading HVDC experts.

If you need a world leader in HVDC, with the best people, skills and track record, PSC is the organisation to contact.

LEADING EDGE HVDC TALENT AND EXPERIENCE

PSC’s HVDC projects are characterised by high demand for constantly evolving applications, leading edge developments in new technologies; and increasing reliability on lower loss interconnection of power networks, including remote and offshore renewable sources.

Individually and collectively, our PSC team has a combined project experience second to none, having an involvement in over half of all VSC HVDC projects worldwide.

PSC is the complete full service provider of HVDC engineering services, bringing recent and relevant technology knowledge and expertise, coupled with pragmatic, hands-on implementation.

ON THE SPOT EXPERTISE, ANY TIME ANY PLACE

On any HVDC project, anywhere in the world, PSC deploys its team of experts to lead the early stages of project development,

feasibility, costing, specification, engineering and design.

We also provide leadership around manufacture, construction, installation, testing and commissioning.

And once the project is live, we provide the key support and advice that will ensure smooth operation and superb maintenance standards.

BROAD EXPERTISE

Our people have very broad, objective technology expertise, including land and submarine cables and VSC and LCC HVDC technologies.

We also offer extensive expertise in key HVDC related fields, including control systems, telecommunications, IT networks, market systems, civil and structural fields, and high voltage transmission lines.

Specialist Consultants
to the Electricity Industry

**HELPING OUR CLIENTS
POWER THE WORLD**

OUR CAPABILITIES

PSC's HVDC service offers clients the following capabilities:

HVDC technology reviews

- ▶ Technical due diligence of HVDC projects

System and engineering studies

- ▶ System studies and reliability studies
- ▶ Dynamic system testing

Feasibility and conceptual design

Control and runback systems

- ▶ Development and testing
- ▶ Factory system testing

Construction cost estimation

- ▶ Regulatory and rate case submission
- ▶ Capex and Opex budget development

EPC specification preparation

Preliminary FEED (Front End Engineering Design)

Procurement, construction and commissioning support

- ▶ Project management
- ▶ Test and commissioning plans
- ▶ Coordination of system tests

O&M procedures and support

- ▶ Operations procedures development
- ▶ Technical and incident investigations
- ▶ Training of operator and technical support staff
- ▶ Control room development
- ▶ Operator training simulators
- ▶ Performance reporting packages

PROVEN REPUTATION

PSC has a global reputation for excellence. A cornerstone of this reputation is an unshakable commitment to excellent client outcomes and value driven client relationships.

The breadth and calibre of our people, coupled with the longevity of our relationships with many of our clients, has led to a portfolio of successful projects around the world.

PSC has delivered HVDC solutions in a range of markets and situations including:

- ▶ North America – HVDC development projects, operational preparation and support
- ▶ Europe – HVDC project delivery including wind farms
- ▶ Australia – HVDC projects and operational support
- ▶ New Zealand – HVDC projects and support

(Ask us for information about these and other solutions, or visit our website)

OUTSTANDING PEOPLE

The PSC team is based in Asia Pacific, Europe and North America, or wherever our client's needs take them. They are on the ground specialists with a shared passion and commitment to helping PSC clients to power the world.
